Order under section 56(1)(a) of the Bengal Village Self-Government Act, 1919.

Whereas I am satisfied from the report of the District Magistrate of Tippera that Maulvi Kalimuddin Ahmed, President, Chatalpar Union Board (No. 1), police-station Nasirnagar, district Tippera, has proved quite incompetent to perform the functions of his office, and that since his election as president, the affairs of the said Board have been mismanaged, the union rates have been heavily in arrears with the result that the Chaukidars have not been paid for a long time, and whereas the District Board, Tippera, in its meeting held on 21st January 1946, recommended his removal from office:

STATEMENT OF OBJECTS AND REASONS.

Frequent changes in the management of insurance companies and other undesirable features in the administration of insurance companies were brought to the notice of Government in the beginning of 1945 and a Committee under the Chairmanship of Sir Cowasjee Jehangir, Bart, G.B.E., K.C.I.E., O.B.E., M.L.A., was appointed to go into the question of such undesirable features and make suitable recommendations. The Report submitted by this Committee contains recommendations which aim at: (i) making it difficult for designing financiers to get control of insurance companies or to use insurance funds for speculative purposes, and (ii) preventing interlocking of interests between insurance companies and banks. Opinions on this Report were obtained from Associations representing the various insurance interests and it was also discussed at a meeting of the Insurance Advisory Committee. A considerable measure of agreement on the recommendations was displayed and it is now proposed to implement these recommendations in the main.

Proposals regarding the prohibition of the commission method of remuneration and limitation of overall expenses of insurers which found a place in the Insurance Amending Bill as modified by the Select Committee of the Legislative Assembly in 1945 have been further considered and legislation on these proposals is now proposed.

This Bill seeks to introduce suitable provisions in the Insurance Act, 1938, covering all the proposals above. Brief explanatory notes on the several clauses of the Amending Bill are given in the annexed Notes on Clauses.

NOTES ON CLAUSES.

Clause 2 adds definitions of 'banking company,' 'chief agent', and 'investment company'.

Clause 3 provides for cancellation of the registration of an insurer who carries on any business other than insurance business and for reviving the cancelled registration under certain circumstances. Power to apply to court to wind-up an insurance company whose registration has been cancelled for contravention of the provisions relating to overall expenses is also provided.

Clause 4 omits redundant words and provides for a power to allow some Co-operative Life Insurance Societies to issue policies without any lower limit on the sum assured.

Clause 5 provides that a life insurance company should have only ordinary shares, with voting rights proportionate to the paid-up capital and should maintain a register showing the beneficial owners of its shares.

Clauses 6 and 8 clarify that the securities held in compliance with section 27 should be free of any encumbrance and provide for the furnishing of periodical certificates to that effect.

Clause 7 places certain restrictions on the investment of the life insurance fund of an insurer, including restrictions on the amount that can be kept by an insurer in the shares of any one banking, investment or joint stock company, and on the amount that can be kept in deposit with any one banking company. It also provides for requiring an undesirable or unsuitable investment to be vacated.

Clause 9 provides for changes in the investments constituting the life insurance fund being reported quarterly to the Supdt. of Insurance.

Clause 10 places further restrictions on loans that may be granted by a life insurance company.

Clauses 11 and 17 seek to restrict commission-method of remuneration to insurance agents and chief agents, to prohibit nomination of a successor or assignment of office by a manager, managing director, or other officer, to provide for the retirement of all directors by rotation and to check payment of excessive remuneration to insurance executives.

Clause 12 seeks to prohibit insurers and banks from having common officers and requires insurers of more than a certain size to have only whole-time officers.

Clause 13 contains amendments consequential to the provisions in clause 14.

Clauses 14 and 18 limit the overall expenses of insurance companies and regulate the activities and contracts of chief agents.

Clause 15 provides that a British Indian life insurance company should have not less than two policyholders' directors.

Clause 16 prohibits British Indian life insurance companies from having common directors and requires changes in the Board of Directors of such companies to be published in newspapers.

Clause 19 requires an insurer to supply such information relating to his business as may be required by Superintendent of Insurance.

Clause 20.—Sub-clause (a) is formal.

Sub-clause (b) provides for items in the Balance-Sheet to show intangible assets arising out of excess of management expenses.

Clause 21 recasts Form D slightly to provide for the insertion of items relating to overall expenses.

DEPARTMENT OF INDUSTRIES AND SUPPLIES.

RESOLUTION.

New Delhi, the 4th May 1946.

Expansion of the Cotton Textile Industry.

No. 205-TA/45.—In February 1945 the Government of India appointed a Committee to prepare a plan for the development of the Indian Cotton Textile Industry. Their Report, submitted in November 1945, is now published for general information.

2. The Government of India wish in the first place to congratulate the Committee on a notably clear and able report which will contribute greatly to the understanding of the problems of this great industry, and to express their gratitude for the public spirit as well as the competence shown by the Committee.

The Government of India are in substantial agreement with the Committee and the differences of view on certain aspects discussed below do not affect the fundamental scheme for expansion which the Committee have proposed.

3. The Government of India agree with the Committee that for the next few years it will not be possible to procure enough machinery to support an expansion of more than 1,700 million yards per annum of cloth. Like the Committee the Government of India would have preferred a greater expansion, but on a consideration of the probable availability of textile machinery in the near future there is no alternative but to plan for the present on the basis of the target recommended by the Committee. The plan will in the present circumstances be an interim plan and it is the intention of the Government of India to review it when world economic conditions or other circumstances make a review desirable.

4. The Committee recommend in essence that expansion should be distributed all over India. With this recommendation the Government of India are in entire agreement, and they have accepted with some minor modifications the detailed suggestions of the Committee for the allocation of new spindlage in the various zones. The Annexure to this Resolution shows the final detailed allocation decided upon. In addition to the allocation shown in this annexure, it is proposed to allot some 130,000 spindles for the purpose of expansion of small mills in various States in the South Deficit Zone and in the Rajputana Deficit Zone.

5. The Committee have taken the view that the amount of "free" yarn at present available from India's mill production is adequate for the needs of handloom weavers and other consumers of yarn. The Government of India, however, think it necessary to ensure increased supplies of yarn for handloom weavers and other consumers, and have to this end directed that at least 25 per cent. of the new spindles installed shall be left uncovered by looms. Each British Indian Province and Indian State would of course be the best assessor of its own exact needs, and the Government of India propose therefore that the Provinces and States, may, if so advised, reserve a larger spindlage for such purposes.

6. The Committee have recommended a reduction in the duty of foreign cotton, and a full rebate of import duty paid on cotton for the benefit of India's export trade. The Government of India do not consider that these measures are justified in the present non-competitive conditions of world trade; but they will review the matter on the lines recommended by the Committee when competitive conditions return, in order that the Indian export trade may be enabled to compete in world markets on equal terms with other countries.

7. The Committee recommended in paragraph 9 of their Report that the import of second-hand productive machinery should be prohibited. Since it will be some years before India can produce enough cloth for her own requirements, the Government of India have not been able to accept this recommendation; they will allow import licences for second-hand productive machinery for the present if they are fully satisfied that the machinery in question will be serviceable for a reasonable period and suitable for economic production.

8. The Committee have recommended that import of certain machinery should be permitted freely from any country in the world. Having regard to existing currency difficulties, the Government of India consider that import of plant from countries in respect of which they exist should be permitted only when there is reason to believe that the plant will be delivered appreciably earlier or

will be considerably cheaper or better than if obtained from the sterling area.

9. The Committee have recommended that where the replacement of existing by new plant is allowed, the replaced plant should be scrapped. While the Government of India appreciate the force of the Committee's recommendation on this point, they cannot see their way, in the present conditions of cloth shortage, to accepting it in toto. But they will urge on Provincial and State Governments the desirability of preventing the use by mills of inefficient and uneconomic plants.

10. In paragraph 23(c) of their Report the Committee recommend that applications for import licences received after the 30th September, 1945, should be excluded. The Government of India have not accepted this recommendation because they feel that the relevant press advertisements did not come in good time to the attention of all industrialists concerned.

11. The Committee have modified the recommendation made in paragraph 24 of their Report, and now recommend that the Government of India should indicate to manufacturers that priority should be given to orders for expansion and new mills over orders for replacement of existing machinery. The Government of India accept this recommendation.

12. The Committee have pointed out in their Report that the present prices of textile machinery manufactured by firms in the United Kingdom are high. The Government of India agree that this is so, and will endeavour to obtain a reduction in those prices.

13. Subject to what is contained in this Resolution, the Government of India accept the recommendations made in the Committee's Report.

ORDER.—Ordered that a copy of the above Resolution be communicated to all Provincial Governments and Administrations, all Departments of the Government of India, the Political Department, The Director General of Commercial Intelligence and Statistics, the Central Board of Revenue, the Indian Trade Commissioners, the High Commissioner for India, London, His Majesty's Trade Commissioner in India and all Chambers of Commerce.

Ordered also that it be published in the *Gazette of India*.
